

RSS Feeds for Jeppesen Notices and Alerts

Did you know there's an easy way to organize and keep track of the latest Notices and Alerts from Jeppesen?

With our RSS (Really Simple Syndication) feeds you can customize the information you receive and make sure you're always up-to-date.

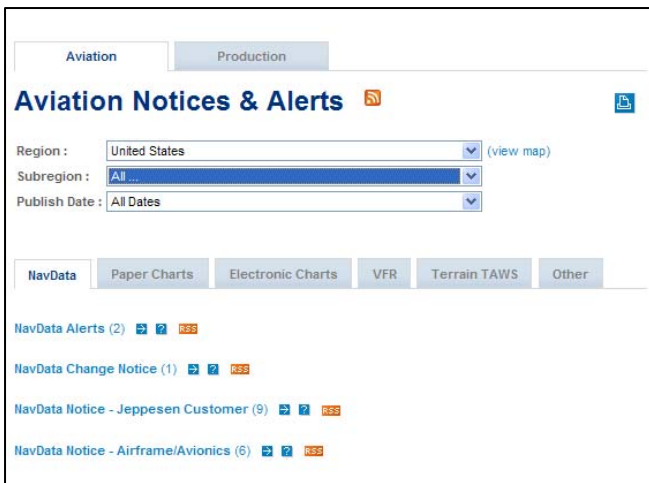

To get started, follow these simple steps:

1. Select your coverage area(s)

Note—the production tab pertains to server maintenance, production issues and other items that may affect the products and services you receive from Jeppesen.

2. Choose your preferences

You can now further customize for subregions and select specific services like NavData, paper charts, etc.

3. Subscribe

Click the orange RSS icon  for any Notices and Alerts you want to subscribe to and follow the prompts. Note—there are many ways to manage your RSS feeds, including Google Reader, Internet Explorer and many e-mail systems. Pick whichever works best for you.

That's it! Now the RSS feed automatically shows you any new Notices and Alerts so you'll always have the latest information. And it's customized so you only get the information that matters to you.
