

Jeppesen NavSuite™

Electronic Charts and Flight Planning Integrated into one Affordable Bundle

Planning for your flight doesn't have to take a lot of time, and flight planning programs don't have to cost a lot of money. That's the idea behind Jeppesen NavSuite. NavSuite combines industry leading products—Jeppesen JeppView® electronic charts with Jeppesen JetPlan.com and Jeppesen JetPlanner flight planning—to make preparing for your flights quick, easy, and more affordable.

Integration is the Key

- Seamless integration between electronic charts and flight planning means more complete information and less time trying to manage multiple tools
- Bundled pricing makes NavSuite more affordable

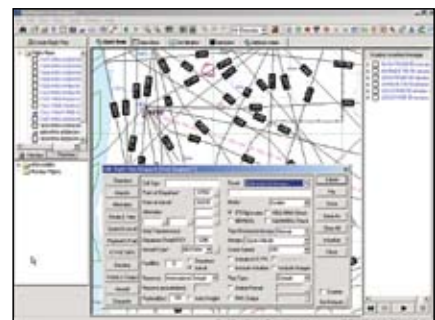

Jeppesen JeppView

- Comes with JeppView FliteDeck, enabling you to view terminal and enroute charts, XM® Wx Worx™ satellite weather, and electronic text in the cockpit—you get the complete package. *(Weather service for US 48 only)*
- Choose from worldwide IFR charts or European VFR charts
- Electronic charts can be printed for paper back-up use in the cockpit
- Easy to use, easy to view full color, vector-based electronic approach and enroute charts
- IFR arrival and departure procedures
- Airport diagrams
- Eliminates the need for paper charts
- View flight plans in JeppView FliteDeck and utilize moving map capability on any geo-referenced approach charts

Jeppesen JetPlanner

- Designed for corporate flight departments, JetPlanner makes sophisticated flight planning easy
- Combines a familiar Windows interface with the full-featured JetPlan® flight planning engine
- User-friendly, intuitive graphic interface makes planning your flight easier
- Overlay JetPlan flight plan routes and weather graphics for a complete picture
- Transmit flight plans, weather, messages and NOTAMs via SITA, ARINC, AFTN, and FAX
- View your flight plans with terminal charts in JeppView

Jeppesen NavSuite™

Jeppesen JetPlan.com

- Easiest, most convenient way to plan your flight
- Internet access to JetPlan anytime, anywhere you have on-line access
- Create flight plans and file them with ATC
- Receive weather and NOTAMs so you're always informed
- All you needed is a PC equipped with Internet Explorer® 5.0 or higher
- No dedicated hardware or software necessary
- Send preflight briefing packages using Easy Brief - flight plans, weather and NOTAMS - to crews at remote locations
- Anytime, anywhere access to updates and revisions via the Internet. Updates issued every 14 days
- View your flight plans with terminal charts in JeppView

Multiple Licensing

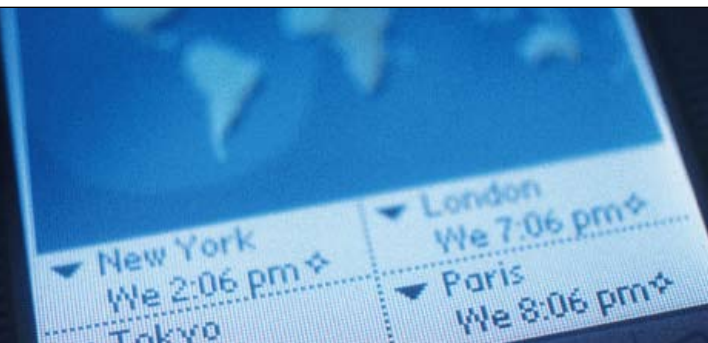

Allows corporate flight departments to manage multiple Installations and receive a discount at the same time.

Combine and Save

Subscribe to Jeppesen NavSuite and save when compared to purchasing JeppView, JetPlan.com and JetPlanner separately.

Everything You Need
