Marine Data Alerts are published to inform users of significant issues in Jeppesen navigation data which may affect marine operations or safety. They are distributed to affected Jeppesen users (shipping companies, OEMs, and other data users) and to registered marine customers receiving data products directly from Jeppesen. Alerts are not distributed by Jeppesen to individual non-registered mariners, but are available to them on the Jeppesen Web site, www.jeppesen.com/marinealerts/. Different plotters and computer systems use and display Jeppesen data differently. Users should consult with their database update service provider for definitive information on whether their system is affected by this Alert.

At the above listed locations charts of larger and smaller scale are not affected, and contain all appropriate navigational aids.

This defect has been remedied and corrected cartridges will be available in the October 2010 release of these products.

NEW VERSIONS OF THE CHARTS ARE SAFER AND SHOULD BE USED TOGETHER WITH OFFICIAL GOVERNMENT CHARTS. JEPPESEN STRONGLY URGES ALL AFFECTED C-MAP NT, NT+ AND MAX CUSTOMERS TO EXERCISE EXTREME CAUTION WHEN NAVIGATING THE AFFECTED AREA AND TO UPDATE THEIR DATABASES TO THE OCTOBER 2010 VERSION! Updated products can be obtained by visiting www.c-map.com or from dealers in your area.

Additional Information

Jeppesen Marine reminds navigators that nautical chart information is constantly changing.

National Hydrographic Authorities periodically publish new and updated information. As it is received, Jeppesen Marine incorporates the updated information into new and existing products. These changes are available to our customers.

Therefore, navigators should check how up-to-date their charting products are. If your charts are outdated Jeppesen Marine strongly urges you to update them via Jeppesen Marine directly, or authorized resellers.
