

JEPPESEN.

Marine Product Change Notice

Jeppesen Marine Product Change Notices highlight changes affecting Jeppesen Marine line of products, also regularly updated at www.jeppesen.com/marinealerts/

Date: February 09, 2010
Subject: Jeppesen C-MAP Charts Replacement
Affected Products: All Jeppesen C-MAP Products

Dear Valued Customer,

Jeppesen Marine offers complete solutions for safe, efficient and cost effective navigation and operation. Our service and support covers electronic charts, as well as a broad range of products and services, from paper charts to weather routing to advanced optimization solutions.

We are currently removing and replacing certain data in our chart databases with data sourced from National Hydrographic Offices. This may result in coverage of certain areas being temporarily unavailable.

Prudent navigators should pay special attention to alternative available cartography, when sailing and planning voyages, since detailed coverage from Jeppesen could still be unavailable.

Additional Information

Jeppesen Marine reminds navigators that nautical chart information is constantly changing.

National Hydrographic Authorities periodically publish new and updated information. As it is received, Jeppesen Marine incorporates the updated information into new and existing products. These changes are available to our customers for purchase.

Therefore, navigators should check their Jeppesen Marine charting products to make sure that they have the most current version available. If your charts are out-of-date, Jeppesen Marine strongly urges you to update them via Jeppesen Marine directly, or through authorized resellers.

Jeppesen electronic charts are an aid to navigation designed to supplement, but not replace, the use of authorized government charts and Notices to Mariners.

Marine Product Change Notices are published to inform users of issues in Jeppesen navigation products, that aren't urgent by nature. They are distributed to affected Jeppesen users (shipping companies, OEMs, and other data users) and to registered marine customers receiving data products directly from Jeppesen. Notices are not distributed by Jeppesen to individual non-registered mariners, but are available to them on the Jeppesen Web site, www.jeppesen.com/marinealerts/. Different plotters and computer systems use and display Jeppesen data differently. Users should consult with their database update service provider for definitive information on whether their system is affected by this Notice.
