ALBANIA

GENERAL
Text section 2.1.1: EFF 31 DEC 20 In Class (G) airspace at or below 3000’ or 1000’ AGL, whichever is the higher: a. flight visibilities reduced to not less than 1500m are permitted for flights operating: 1. at speeds of 140 KT IAS or less to give adequate opportunity to observe other traffic or any obstacles in time to avoid collision; 2. in circumstances in which the probability of encounters with other traffic would normally be low, e.g. in areas of low volume traffic and for aerial work at low levels. b. HEL are permitted to operate in less than 1500m, but not less than 800m flight visibility, if manoeuvred at a speed that will give adequate opportunity to observe other traffic or any obstacles in time to avoid collision.
Text section 2.8: EFF 31 DEC 20 VFR flights at night are permitted under the conditions described in General 2.4 Visual Flight Rules.
