RWY 03 ALS estbld.

VFR Noise Abatement Procedures chgd (part 1/3): RWY 21 Departures All ACFT departing RWY 21 VFR are required to turn right, after passing the AD BDRY, to make a good track of 220° QFU: - ACFT departing to the W via Kenley should continue to 1 NM, before turning right and setting course, avoiding the villages of Woldingham and Warlingham; - ACFT departing to the E or NE via Sevenoaks or Swanley should continue to 2 NM before turning left and tracking to the SE, remaining S and E of Tatsfield village. A useful visual reference for the turn is to remain S of the Tatsfield golf course; - once an ACFT has left the ATZ, it should not re-enter the ATZ without the appropriate ATC clearance. ACFT intending to route to via Swanley should ensure that they arrange their flight in order to avoid the eastern limits of the ATZ whilst tracking northeast. Caution, there may be numerous ACFT joining from the east.

VFR Noise Abatement Procedures chgd (part 2/3): RWY 03 Departures: ACFT departing RWY 03 are required to climb straight ahead until 1 NM: - ACFT departing to the W via Kenley to make a left turn en-route to leave the ATZ; - ACFT departing E or SE Sevenoaks or NE via Swanley to leave the ATZ. Caution, there may be numerous VFR ACFT joining from the east; - ACFT departing to the N, continue en-route but avoiding overflight of the Noise Sensitive Areas of Orpington and Chelsfield. Expect an early freq change to the next agency, due to the close proximity of London Heathrow and London City CTAs; - all pilots must in all cases avoid overflight of the residential areas to the N and E especially Keston, Farnborough, Orpington and Downe.

VFR Noise Abatement Procedures chgd (part 3/3): Visual Circuits: All circuits are conducted to the W of the AD (RH RWY 21). Overflight of the following Noise Sensitive Areas should be avoided, unless necessary to fulfil an ATC instruction such as to extend downwind for Spacing, Keston Village, the Leasoveden estate and Leaves Green. ACFT unable to comply with these requirements should not plan to make use of the AD. ACFT joining the visual circuit from the E or SE should avoid overflight of the Noise Sensitive Area of Downe Village and Biggin Hill Village.

Birmingham, EGBB, EFF 07 NOV 19 CTA (D) Birmingham 10 (FL 65/FL 105) estbld, S & W of CTA Birmingham 4, 5 & 7.
