

JEPPESEN.

NavData® Alert

!! URGENT !!

Date: 27 November 2009

Subject: Valparaiso, Florida
Eglin AFB (KVPS)
ILS Y Rwy 19 [I19]
Cycle 0912

Incorrect Transition Bearing

Jeppesen NavData for cycle 0912, effective 19 November 2009, contains incorrect data for Eglin AFB; Valparaiso, Florida (KVPS). Source documents were received after our 0912 production cutoff, and, as a result, Jeppesen was unable to process changes to a transition bearing for the CRESTVIEW [CEW] transition of the ILS Y Rwy 19 at this location.

THEREFORE, DO NOT USE THE CRESTVIEW [CEW] TRANSITION OF THE ILS Y RWY 19 [I19] AT KVPS IN CYCLE 0912 NAVDATA.

Revised coding will appear in Jeppesen NavData for cycle 0913, effective 17 December 2009. Until then an entry will appear in the NavData Change Notices beginning 11 DEC 09, and this Alert will be posted on the Jeppesen Web site (<http://www.jeppesen.com/company/alerts/aviation-alerts.jsp?region=United%20States>).

WE STRONGLY URGE YOU TO MAKE THIS INFORMATION AVAILABLE TO APPROPRIATE CREW MEMBERS OR CUSTOMERS IMMEDIATELY!

If you have questions concerning this NavData Alert, please contact Jeppesen Technical Support at:

Phone: 303-328-4445

E-mail: navdatatechsupport@jeppesen.com

NavData Alerts are published to advise users of significant issues in Jeppesen navigation data which may affect flight operations or safety. They are distributed to affected ARINC 424 NavData users (avionics companies and other raw data users) and airlines receiving NavData directly from Jeppesen. Alerts are not distributed by Jeppesen to individual airline, business aviation or general aviation pilots, but are available to them on the Jeppesen Web site, www.jeppesen.com. Different avionics equipment and computer systems use and display NavData and data derived from NavData differently. Avionics users should consult with their database update service provider for definitive information on whether their system is affected by this Alert.
